

Medical facility at IIT Indore health centre and Document requirement for availing the services

The health centre of Indian Institute of Technology Indore provides dedicated health care services to IIT Indore community. The team of doctors and paramedics serve as the primary health care provider with holistic approach for students, employees and their dependents. The health centre has outpatient (OPD) facility, well equipped emergency room and in-patient facility for minor ailments. Further, IPD facilities for students would be provided only through group medical insurance policy available for students. Emergency medical services are available at the health centre 24 x 7.

All the registered students at IIT Indore are entitled to OPD medical facility, basic investigations and treatment available in the IIT Indore Health Centre.

Note: It is mandatory to submit pre-joining physical fitness in the format provided. Students are advised to provide information about their pre-existing medical illnesses and treatment details, if any. This will be useful to medical team for ensuring better medical support during their stay on IIT Indore campus. Students are required to get themselves vaccinated before arrival on the campus as advised.

Verification of physical fitness form:

For PG/ PhD students with registration on July 23, 2026:

On July, 22, 2026

Venue: At Institute Health Centre
