

Advertisement for Admission to Ph.D. Program in Department of Physics, IIT Indore

Adv. No.: IITI/Phy/Ph.D. Admission/2025/01

Submission Deadline: 31st January 2025

**Written test and offline interviews of Shortlisted candidates: February 26th,
27th & 28th, 2025**

For Eligibility Qualifications, Directions and Application Process see bottom

About the Department of Physics:

The Department of Physics has been a vibrant and flourishing department since the inception of the Institute in 2009. Presently the department consists of 19 faculty members with expertise in diverse fields such as condensed matter physics, high energy physics, black-hole physics, gauge/gravity duality and complex networks. Our research labs have state-of-the-art facilities, that have grown and evolved over the years to facilitate cutting-edge research and foster innovation and technology development amongst the young research students.

Our PhD students have been placed at prestigious institutes worldwide and are actively pursuing research. Our commitment to providing students with practical research experience extends across all levels of education, from undergraduate to postgraduate programs. To this end, the department has established more than 15 advanced research laboratories, each focusing on different branches of physics, to provide our students with unique research opportunities and an exceptional learning experience.

The Department of Physics at IIT Indore proudly showcases a diverse range of cutting-edge research areas, which can be broadly categorized into three primary subgroups: Condensed Matter Physics, High Energy Physics, and Complex Networks and Systems (Further details appear in the subsequent pages). The department prides itself on fostering a highly collaborative research environment, that facilitates close interaction across various departments in IIT Indore, and renowned national and international institutions. Presently we have active collaboration with IISc Bangalore, IITs (Bombay, Delhi, Madras, Kanpur, Ropar, Hyderabad), RRCAT, Indore, BARC, Mumbai, IISERs (Kolkata, Pune, Behrampur), HRI Allahabad, Central Universities (Pune, Mumbai, Allahabad, Calcutta), SNB-NCBS, Kolkata, and SINP – Kolkata.

Our international collaborations include but are not limited to the University of Cambridge, University of Oxford, Stanford University, Michigan State University-USA, Penn State University-USA, CUNY-USA, LUH Hannover-Germany, Rutherford Appleton Laboratory and ISIS Facilities - UK, TU Berlin - Germany, TU Dortmund - Germany, Queens Mary University London-UK, LMU-Munich, Germany, Bern University-Switzerland, Osaka University- Japan, NTU - Singapore, Complexity Science Institute - CNRS Italy, Instituto Superior Tecnico, Lisbon, Portugal.

Invitation of admission to the Ph.D. Program in the following research areas:

Research Area	Faculty Members
Condensed Matter Physics (Experimental)	<ul style="list-style-type: none"> • Prof. Preeti A. Bhobe • Prof. Krushna R. Mavani • Prof. Rajesh Kumar • Prof. Sudeshna Chattopadhyay • Prof. Pankaj R. Sagdeo • Prof. Somaditya Sen • Dr. Onkar S. Game • Dr. Naresh K. Kumawat • Dr. Bivas Dutta
Condensed Matter Physics (Theory and Computation)	<ul style="list-style-type: none"> • Dr. Srimanta Pakhira • Dr. Alestin Mawrie
High Energy Physics (Experimental)	<ul style="list-style-type: none"> • Prof. Raghunath Sahoo • Prof. Ankhi Roy
High Energy Physics and Particle Physics (Theory)	<ul style="list-style-type: none"> • Prof. Subhendu Rakshit • Dr. Manvendra Mahato • Dr. Dipankar Das • Dr. Debajyoti Sarkar • Dr. Mritunjay Kumar Verma
E. Nonlinear Dynamics and Complex Systems (Networks, Statistical Physics, Nonlinear Dynamics, Computational Biology)	<ul style="list-style-type: none"> • Prof. Sarika Jalan

BRIEF AREAS OF RESEARCH OF INDIVIDUAL FACULTY MEMBERS are provided below (details can be found from personal webpages):

Faculty Member	Research Area	Website	Email
Condensed Matter Physics (Experimental)			
Prof. Preeti A. Bhobe	Unconventional Magnetism in quantum materials, Magneto-transport in 2D and Spintronic materials, Magnetocaloric effect, X-ray Absorption Fine Structure, Photoemission Spectroscopy, Neutron Diffraction.	Website	pbhobe@iiti.ac.in
Prof. Krushna R. Mavani	Terahertz spectroscopy of solid materials, Pulsed Laser Deposited nanostructures, thin films and multilayers, Phase-transitions, Electronic and magnetic properties, Structure-property relations, Optoelectronic materials and devices.	Website	krushna@iiti.ac.in
Prof. Rajesh Kumar	Nanomaterials & nanodevices, electronic and electrochromic devices, Device physics, Raman Spectroscopy & Microscopy, Natural Biomaterials	Website	rajeshkumar@iiti.ac.in
Prof. Sudeshna Chattopadhyay	Study of Surface and Interfaces – nanomaterials, thin-films, structure-property relationship - optical properties, photocatalytic activity, application in solar cell; Soft matter physics; Atomic Layer Deposition (ALD), X-ray scattering, Nanotechnology in Biomedical applications and environmental remediation; Electrical Energy Storage- batteries and supercapacitors – Li and Al ion batteries.	Website	sudeshna@iiti.ac.in

Faculty Member	Research Area	Website	Email
Prof. Pankaj R. Sagdeo	Physics of Semiconductors, Nanomaterials, Materials for Solar cell and Energy applications, Photovoltaics, Magnetic and ferroelectric, magneto-dielectric and optoelectronic materials, Physics of Crystallographic and related phase transition/structure property correlations across phase transition, Superconductivity, Electron-Phonon Physics, Thin-films, multilayers, Raman and Optical spectroscopy etc.	Website Website	prs@iiti.ac.in
Prof. Somaditya Sen	Structure-Correlated Physical Property Studies on the following fields: 1. Ferroelectric, Magnetoelectric, Piezoelectric Materials: Studies on Polarization, Energy Storage Efficiency, Phase Transitions, Morphotropic Phase Boundaries, Piezo-photonics, Transport/Dielectric/Polaronic Properties 2. Oxide Thin Films: Device Studies 3. Green Synthesized Oxide Nano-Materials: Studies on Functionalization of Nanoparticles, Effect and Mechanism on Antibacterial, Wound Healing and Seed Germination Properties 4. Dielectric Resonator Antennas: Studies of designing Antennas using Oxide Ceramics to cater to different bands especially in the GHz and THz range 5. Modified Simple Oxides: Studies on Light-Sensing, Gas-Sensing, Device Fabrication	Website	sens@iiti.ac.in
Dr. Onkar S. Game	We work in the realm of novel semiconductor nanostructures and thin films for energy (Solar Cell, Solar-fuel etc.) and optoelectronic applications (LEDs, photosensors, transistors etc.). Specifically, we use nanostructures and thin films of semiconductors such as metal oxides, organic-inorganic hybrid halide perovskites, organic semiconductors etc. for renewable energy generation using Solar Cells and/or Solar Fuel (H ₂ generation by solar-water splitting/ Solar-CO ₂ reduction etc). We aim to gain thorough understanding of underlying device physics and hence improve the performance/efficiency of such energy and optoelectronic devices. For this we use range of material and device characterization tools (XRD, UV, SEM, Raman, PL, XPS, IV-measurements, electrochemical JV/impedance analysis etc.)	Website	ogame@iiti.ac.in
Dr. Naresh K. Kumawat	Metal Halide Perovskite (MHP) and Organic Semiconductors, Organic-inorganic perovskite semiconductors and solar cells; Fabrication, Light Emitting Diodes (PeLEDs) and Solar Cells; Device Characteristics; Device Physics	Website	nkumawat@iiti.ac.in
Dr. Bivas Dutta	Cryogenic-Temperature Quantum Transport Lab: Quantum heat transport and thermodynamics; Nano-electronic quantum devices: Quantum-Dots, Superconducting tunnel junctions; Quantum Hall thermal transport in 2D materials; Employing non-abelian Majorana edge modes in the Topological Quantum Computations.	Website Website	bivas@iiti.ac.in

Faculty Member	Research Area	Website	Email
Condensed Matter Physics (Theory and Computation)			
Dr. Alestin Mawrie	(Nanoscale and Mesoscale physics): Topological Insulators, Topological Spintronics, Dirac materials, Quantum Transport properties.	Website	amawrie@iiti.ac.in
Dr. Srimanta Pakhira	Condensed Matter Theory, Computational Materials Physics and Materials Science, Condensed Matter Nanoscience, Electronic Structure Theory, Density Functional Theory and Molecular Dynamics (MD) Simulations, Semiconductor Physics, Magnetism, Physics of Novel Solar Cells and Perovskite, Renewable Energy Technology. Porous Materials and Their Applications in Gas Storage, Separation, Adsorption and Drug Delivery in Metal-Organic Frameworks and Covalent Organic Frameworks. Alkali-ion Battery, Novel Batteries Technology, Renewable Energy Materials, Carbon Capture, Graphene, Bilayer Graphene, Mxene, Electrocatalysts, Photocatalysts, Novel 2D Materials, H ₂ & O ₂ Evolutions, and Alkane Cracking in Oil Refining Technology.	Website	spakhira@iiti.ac.in
High Energy Physics (Experimental)			
Prof. Raghunath Sahoo	High-Energy Physics Experiment (ALICE Experiment @ CERN, Switzerland and CBM Experiment @ GSI, Germany), Phenomenology of Quark-Gluon Plasma, Exploration of QCD Phase Diagram, GRAPES-3 (Gamma Ray Astronomy PeV Energies); Applications of Statistical Mechanics and Machine Learning in High Energy Physics, Charmonia production dynamics at LHC energies, Event topology and multihadron production dynamics, Astroparticle Physics.	Website	raghunath@iiti.ac.in
Prof. Ankhi Roy	Heavy Flavor Hadrons, Heavy Ion Collision (Experiment: ALICE@LHC, CBM@FAIR), Study of Exotics with Electron Ion Collider (EIC) Experiment, Detector Simulation, Machine Learning, QGP Phenomenology	Website	ankhi@iiti.ac.in
High Energy Physics & Particle Physics (Theory)			
Prof. Subhendu Rakshit	Astroparticle physics with dark matter and neutrinos, cosmology, experimental constraints on models beyond the standard model of particle physics, effective field theory and collider physics, gravitational waves, etc.	Website	rakshit@iiti.ac.in
Dr. Manvendra Mahato	Gauge/gravity correspondence, String Theory, General relativity.	Website	manav@iiti.ac.in
Dr. Dipankar Das	Particle Physics phenomenology, Phenomenology of the Higgs boson, Flavor Physics, Grand Unified Theories, Interplay between Neutrino mass and Dark matter.	Website	d.das@iiti.ac.in
Dr. Debajyoti Sarkar	Theory of quantum gravity (string theory), in particular Anti de Sitter (AdS)/ conformal field theory (CFT) correspondence. Connections between AdS/CFT and quantum information theory. Topics on semiclassical gravity and its applications in black hole physics and Hawking's information paradox.	Website	dsarkar@iiti.ac.in
Dr. Mritunjay Kumar Verma	String Theory, AdS/CFT correspondence, Flat space holography and quantum gravity, Higher spin fields, Low energy physics from string theory and machine learning, String field theory.	Website	mritunjay@iiti.ac.in

Faculty Member	Research Area	Website	Email
Non-Linear Dynamics And Complex Systems			
Prof. Sarika Jalan	Synchronization, Hypergraphs, Machine learning, Power-grid networks, Financial networks, Tipping points, Time evolving networks, Chaos, Coupled Oscillators	Website	sarika@iiti.ac.in

Applications are invited from highly motivated and research-oriented applicants for admission to PhD Program in the following specializations of different disciplines as per the below mentioned categories of admission and time schedule. Applicants are advised to visit the profiles of the faculty members at the respective discipline web page, and the advertisement uploaded by each discipline, before applying for PhD Program.

Applicants are selected for admission to PhD programs through a rigorous evaluation process which includes an interview by a selection committee and mere application does not imply admission into the PhD program.

Before deciding for paying a non-refundable application fee, please verify your eligibility by checking the MEQ and QE requirements of the discipline to which you intend to apply.

Admission Categories:

FA (Fellowship Awardee): Fellowship Awardees from the funding agencies such as CSIR, UGC, NBHM, DST etc. The scholarship will be as per the rules of the concerned funding agency.

Minimum Educational Qualifications (MEQs) and Qualifying Examination (QE) for applicants:

- Masters' degree (M.Sc./M.S./M.Tech.) in Physics, Optoelectronics, Solid State Physics, Nanotechnology/Nano-sciences, Applied Physics or Mathematics or Applied Mathematics (with first division as defined by the awarding Institute/University).
- A valid UGC-JRF/ CSIR-JRF, DST Inspire Equivalent Fellowship.

Applicants must keep in mind the following before applying:

1. Applicant **must visit** the faculty profiles of the Discipline of Physics at <https://physics.iiti.ac.in/faculty/>
2. The applicant must understand the research interest of individual faculty members of the discipline before appearing the interview according to his/her preference.
3. At the time of the application, the applicant should have a very clear idea of the subject of research that he/she wants to pursue and should be able to convince the interview committee about the same.
4. The application procedure is given at the end of this document.
5. Descriptions on admission categories, eligibility, etc. can be found on the main page: <http://academic.iiti.ac.in/phdadvt.php> which needs to be read and understood in detail.
6. If selected, the shortlisted applicant will be informed by email.

APPLICATION PROCEDURE:

1. Candidates must apply ONLINE through the IIT Indore website. This will generate a unique application number for each applicant. The last date for online application is January 31, 2025.
2. Application fee should be paid through State Bank Collect only. This will generate a payment code number that will be required while initiating the filling out of online application forms.
3. The shortlisted applicants will be intimated by email ONLY. Hence, please state your email id carefully. Please check your SPAM folder regularly.
4. The Shortlisted candidates should arrange for at least TWO recommendation letters to be submitted to us in the format provided. A separate email for the same will be sent by us in this regard to the short-listed candidates. Those who have already submitted the recommendation letters to us, DO NOT resend it.
5. The interview process consists of 2 stages. Shortlisted candidates will have to physically appear for a written test to be held in IIT Indore. Candidates passing this test will appear for interviews which will be held at IIT Indore. Candidates will be required to make their own travel arrangements and can opt for hostel accommodation. The tentative dates of the written test and interview are : February 26th, 27th & 28th , 2025
6. The candidates appearing for the interview will be asked for a handwritten 'Statement of Purpose', describing the details of their interest/motivation, their relevant learning, and skills in research as well as their reason for joining Ph.D. in Physics at IIT Indore.
7. The decision of the institute in all matters will be final.
